

# Travel Nevada Co-Op Campaigns

FY 2027

# Nevada Co-Ops

Through Travel Nevada's Co-Op Sponsorship, DMOs, Airports, Attractions and Hotels in the State of Nevada will leverage Expedia Group's First Party audience of travel intenders across its portfolio of brands (Expedia, Hotels.com, Vrbo and more) at a discounted cost and extended reach to help drive incremental hotel and air bookings to the state.

## Our Solutions

This year, our recommendation would be **to continue the three seasonal Co-Ops**, and we would also offer a third option, where Travel Nevada supports the funding of an individual **CVB's own 3-4 month standalone campaign**. This option allows CVBs to meet individual campaign goals through Co-branded advertisements driving to a landing page uniquely highlighting their destination.

All participating partners will receive significant exposure across Expedia's sites targeting Nevada key feeder markets and End of Campaign Reporting.

Data – backed targeting specific to the destination to reach their top feeder states. Insights will be used to determine recommended timings during FY 27 that are aligned with the destination's search and booking trends.\*\*

Co-Branded banners highlighting Travel NV and the CVB, driving to a dedicated landing page where the CVB has full control over the content, with live inventory pulling in hotels in the destination.

High exposure display campaign that gives a CVB strong visibility and the opportunity to get in front of travelers. A great way for CVBs to test standalone Expedia Campaigns

Detailed reporting provided to both the CVB and Travel Nevada at the campaign end.

**\*\* Note on targeting:** Understanding Travel Nevada is contributing to this campaign, we would not permit the participating CVBs to run any targeting strategy competitively conquering against other cities across the state of Nevada. However, targeting searchers of surrounding states would be permitted.

# Ad/ Landing page elements

Each standalone campaign will consist of Co-Branded banner ads driving to a landing page where the CVB has 100% share of voice.

Live inventory from our sites can be pulled into this page for a seamless travel booking experience.
